Logline:

After a workplace **fuck** up, our tenacious hero Debs has to balance cleaning up her mansplaining boss's mess, while juggling her ever building responsibilities as a mother.

Oh, she's also an assassin by the way.

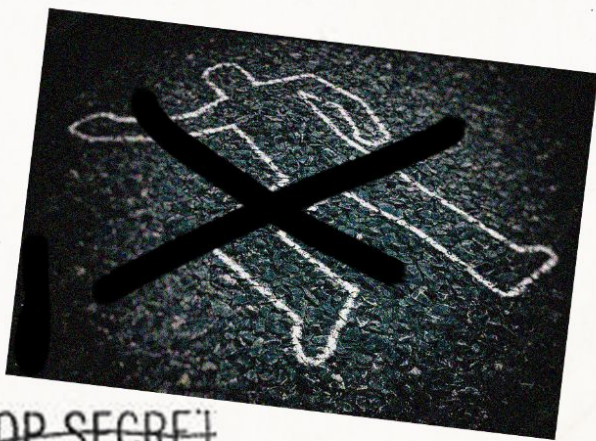

Synopsis:

DEBS is your average mum, juggling a stressful & demanding job of murdering people while also caring for her bab.

Her latest assignment isn't going well. Her handler MOTHER HEN (a man) has dropped her in it last minute. She's playing catch up while Mother Hen insists on mansplaining the reasons why she's failing to get any recognition with the bigwigs. On top of this she's dealing with her overbearing mother's phone calls about childcare, her daughter's existential crisis after losing her favourite soft toy (Pando) & some idiot who manages to barge in during an assassination attempt.

Debs manages to convince Mother Hen of her promotability (via threats on his **stupid** children's lives- men respond best to shows of strength FYI), sort out the intruder (murder the **shit** out of them) & to even wrap up killing the actual target. Except it's the wrong target & the wrong house. She's at a six year old's birthday party. With fantastic **fucking** balloons.

Now Debs has to decide if she leaves the job as an untidy cluster **fuck** or the clean up the best way she knows how- murdering every single guest at the party. After a quick killing spree she can relax, job done. Then in walks the pigtailed, party hat wearing birthday girl & HEY! She's got a lovely looking soft & fluffy toy Pando too. Maybe things will all work out after all.

Themes :

This short explores being a working mother in 2022. What a ~~cunting~~ old job that is my friend.

Mothers are expected to work like they don't have kids & parent like they don't have a job. Easy right?

The ~~shit~~ women have to put up with in the workplace, society as a whole and even their own ~~fucking~~ homes is *ball-tits* to be honest. It's only in the last 5 yrs some of this shit has even been given names- *Mansplaining* has been around since the dawn of time, least now we have a handy phrase that we can use after the event... while still nodding our heads and keeping our jobs at the time. ~~Cunts~~.

Throw in being a mother. How dare you ~~bitch~~! And we have a whole shitshow on our hands. Looked over for promotion, paid less, not taken seriously and forced out of their jobs. ~~Fuck the patriarchy!~~

We want to comically explore that pressure, twist some gender expectations, poke the patriarchy where it hurts (~~wallet~~, ~~power~~, ~~testicles~~) all the while making people chuckle & think.

Tone / Style:

SANITIZED COPY
SENSITIVE INFORMATION DELETED

Imagine if Sharon Hogan made *Barry* with Tim Key being overly loud and obnoxious in the next room.

We see this as a *brilliantly blocked oner*. Up until we see the targets flat. The emphasis of performance and timing, a beautiful dance of mayhem that's all about being in the wrong place at the wrong time.

We really want to emphasise the absurdity of the situation. Mining each dash of violence for comedic effect.

Basically you'll cover your mouth to stop from ~~laughing~~, not sure if your even supposed to be ~~laughing~~ all the time.

Characters:

DEBORAH (Debs)

Deborah is who Jason Bourne would have been if didn't have a **dick** or a head injury but did have a six year old and a mild **avocado** addiction.

Her biggest ambition in life is to climb to the top of the patriarchal ladder so that she can burn that **shit** down and make a commune. Only joking. She just wants get the occasional big project, a yearly pay rise and to be valued in her job. She's your average, really nice person.

Anyway, her job is killing people (don't judge!). Which she squeezes in around school runs (Tammy's got nits AGAIN!) and her obsession with Coronation Street - Who DID kill Imran!?

She's going to do her job AND get her kid the teddy she wants without any hoohah ok. Ok? (Hint: There will be Hoohah). The only obstacle standing in the way of her having it all is her boss; the **sexist, racist** - all the ists - Mother Hen. No wonder he keeps getting promoted.

MOTHER HEN

Mother Hen is your average corporate climbing backstabbing **bitch** that will trample over anything to get to the top. He doesn't consider women up to any job other than his own personal skivvy and Debs scares the sweet **shit** out of him because he can't control her. He constantly questions her judgement, skills, and her **bra** size.

He thinks he's Han Solo, he's actually a pound shop Nigel Farage.

THE CORPSES

Grand-pierre- Wrong place, wrong time. Looked way too much like the actual target. He should have known.

Dave- Grew a Freddie Mercury moustache. Need I say more?

Tarquin- Come on...

Lilly Age 6- Ok ok, she was a cute child. But she had a Panda that Debs' daughter would love sooooo.....
